General Information:

The Boys & Girls Club would like to take this opportunity to inform you about our programs and philosophy. Our activities and programs are designed to meet the needs of our members as well as to introduce them to new activities and experiences. The goal of our program is to offer a variety of recreational, educational, and cultural activities for our members as well as to provide experiences which give opportunities for choice, individual achievement, development of self confidence, reinforcement of values and fun.

The philosophy underlying Boys & Girls Club programming is the Youth Development Strategy. All programs and activities are designed to maximize opportunities for young people to acquire four basic "senses" which help them build self-esteem and grow into responsible and caring adults. These four senses are:

- A Sense of Competence
